Read me

I denne read-me-fil findes en oversigt over de variable der indgår i de uploadede datasæt. For en beskrivelse af spildevandsovervågningen og beregninger bag det tilgængelige data, samt offentliggjorte resultater, henvises der til datagrundlaget for spildevandsovervågning af SARS-CoV-2 i Danmark.

Variable i datasættet

| date | Torsdag i den uge hvor spildevandsprøverne er udtaget. |
|-----------------|--|
| week | Ugenummeret i den uge hvor spildevandsprøverne er udtaget. |
| region | Angiver region (kun tilgængelig for regionale data). |
| rna_mean_faeces | Samlede fæcesnormaliserede ugentlige gennemsnit af SARS-CoV-2 RNA vægtet efter |
| | befolkningsstørrelse i de enkelte oplande for henholdsvis Danmark og de enkelte |
| | regioner. |
| ci_low_rna | Nedre grænse i konfidensintervallet for rna_mean_faeces. |
| ci_high_rna | Øvre grænse i konfidensintervallet for rna_mean_faeces. |
| lab | Angiver hvorvidt analyserne er gennemført af et eksternt laboratorie ("external"), |
| | eller af TestCenter Danmark på Statens Serum Institut ("tcdk"). |
| | Laboratorieanalyserne blev overtaget af Statens Serum Institut den 1. april 2023. |

Read me (English version)

This read-me-file contains an overview of the variables included in the uploaded data sets. For a detailed description of the wastewater surveillance of SARS-CoV-2 and calculations behind the available data, please refer to the <u>data description of wastewater surveillance of SARS-CoV-2 in Denmark</u>.

Variables in the data set

| date | Thursday of the week in which the wastewater samples are taken. |
|-----------------|--|
| week | The week number of the week in which the wastewater samples are taken. |
| region | Indicates the region (only available for regional data). |
| rna_mean_faeces | Weekly averages of the faecal-normalized SARS-CoV-2 concentrations, weighted by |
| | catchment area populations, for both Denmark and the regions. |
| | |
| ci_low_rna | Lower limit in the confidence interval for rna_mean_faeces. |
| ci_high_rna | Upper limit in the confidence interval for rna_mean_faeces. |
| lab | Indicates whether the laboratory analysis are performed by an external laboratory |
| | ("external") or by TestCenter Danmark at Statens Serum Institut ("tcdk"). The |
| | laboratory analysis have been carried out at Statens Serum Institut since April 1, |
| | 2023. |
